Ms. Lenore Hynes
16001 Feller Road
Brookville, IN 47012

Dear Ms. Hynes:

As a member of the Indiana House of Representatives, I would like to endorse and support the exciting project that is being proposed in Franklin County called "The Whitewater Canal Trail." This trail, if completed, would have tremendous benefits to the citizens of Franklin County.

The advantages of this 8-mile stretch becoming reality would not only be educational for those traveling this trail, but would also give the citizens of Franklin County the opportunity to experience great beauty. By constructively utilizing this land we would be preserving pieces of history for all to enjoy forever. Not to mention the economic value this proposed trail will bring to local businesses and property owners that are located near the trail.

The positives in pursuing this project greatly outweigh any concerns local residents have regarding trespassing. Therefore, I again give my complete support to the successful completion of The Whitewater Canal Trail project.

Sincerely,

Robert J. Bischoff
State Representative
House District 68
